The Chemical Age

Index to Volume XLVIII. January to June, 1943

A

Accident Occurred, An, 527
Adhesives for Metals, New, 554
Adhesives in Use, Synthetic, 247
Administration, Industrial, 255
Advances in Colloid Chemistry, 88
Aggregates, Processed, 351
Aggregates, Tests for, 352
Agricultural Lime, 533
Alcohol Production, Wheat for, 561
Alloys, Heat Treatment of, 610
Aluminium Casting Alloys, 274
Aluminium Co-ordination, 354
Aluminium, Electroplating on, 483
Aluminium in 1942, Swiss, 536
America, Beryllium in, 604
America, Chemical Containers in, 668
American Chemical Society Meeting, 646
American Patents, New, 122, 205, 427, 579
American Regional Laboratories, 505
American Scientists at War, 599
American Service, New, 378
American Steel Research, 17
American Styrene Production, 31
Analysing Plant Leaves, 600
Analysis of Fluorspar, 513
Analytical Chemistry, Recent Development in, 5, 339, 623
Anodising, War-Time, 560
Apparatus in Micro-Volumetric Analysis, 439
Arc Welding in the U.S.A., 402
Association of Scientific Workers, 531
Associations, New, 529
Audley Products, 62
Australian Developments, 401

AUTHORS—

Arend, A. G., Reclaiming Zinc and Lead, 11; Treatment of Molybdenum Ores, 477
Banfield, F. H., Research Work in the Food Industry, 51; Biddulph-Smith, L., Modern Concentrated Liquor Plant, 521; Bikerman, J. J., Advances in Colloid Chemistry, 88; Blacktin, S. C., Criteria of Dust Determination, 575; Bullivant, D. J., Sulphur and Phosphorus in Copper, 181
Creevey, J., An Accident Occurred, 527; Fires at Chemical and Allied Works, 643; Some Pointers of Safety Wisdom, III, 91; IV, 221; V, 325; Safety for Those New to Industry, 419
Einerl, O., The Cycle of Non-Ferrous Metals, 267, 371
Fox, J. J., A New Year Message, 34; Fox, R. M., Chemical Progress in Eire, 93
Gilpin, E. H., Structure of Post-War Industry, 201
Hollowood, A. B., Ceramic Chemistry, 85; Howat, D. D., Boiler Water Treatment, 365, 387, 413
Langley, J., The Craft of Demolition, 525; Lerner, M., Potassic Flue Dust, 644
Madeley, S. T., Developments of the Patent Situation, 347; Masters, D. L., Apparatus in Micro-Volumetric Analysis, 439; Maude, A. H., Anhydrous Hydrogen Chloride, 145; Maxted, E. B., The Nitrogen Industry in 1942, 49; Mitchell, H. R., Hardened Edible Oils, 471, 495
Neurath, F., The Cycle of Non Ferrous Metals, 267, 371
Parrish, P., The Chemical Industry and the War, 35; Peake, A. M., War-Time Developments in Solvents, 55; Powell, R. H., Recent Developments in Laboratory Apparatus, 443
Reimold, A. G. H., Fatty Acids, 123; Reynolds, W. H., British Non-Ferrous Minerals, 197, 343, 549
Seymour, H., Sodium Metaphosphate, 151; Simon, H., Some Modern Rustproof Coatings, 481; Steiner, L. A., Capillary Viscometers, 448
Townend, D. T. A., "The Changing Scene," 99; Turner, W. E. S., New Uses for Glass, 128

Authors—*continued*

Walker, J. E., Petroleum in the Chemical Industry, 261, 285, 317; Withey, S. Howard, The Trend of War-Time Earnings, 422, 506
York, R. F., Copper Compounds and Cellulose, 243
Axial Flow Fans, 102
Axis Chemical Notes, 87

B

Barytes, 198
Bauxite, British Guiana, 312
Bearings, Oil-Retaining, 161
Bentonite as Plasticiser, 242
Beryllium in America, 610
Boiler Tubes, Corrosion of, 115
Boiler Water Treatment, 365, 387, 413
Bonus Scheme Survey, 249

BOOK REVIEWS—

B. D. H. Revised Catalogue of Laboratory Chemicals and Testing Outfits, 558; Bibliography of the Literature Relating to Constitutional Diagrams of Alloys (J. L. Haughton), 10
Chemistry and the Aeroplane (V. J. Clancey), 222
Dictionary of Organic Compounds, Vol. I (Heilbron and Bunbury), 676
"Endeavour," 222; Equilibrium and Kinetics of Gas Reactions (R. N. Pease), 158; Experimental Researches and Reports (Soc. Glass Techn.), 159
Introduction to Industrial Mycology (Smith and Raistrick), 159
Metabolism of Fat (Ida Smedley-Maclean), 676; Modern Industrial Lighting (G. Bernard Hughes), 426; Modern Synthetic Rubbers (H. Barron), 158
Planning of Science, 558; Pulp and Paper Manufacture Laboratory Handbook of (J. Grant), 158
Starvation in Europe (G. H. Bourne), 676; Synthetic Resins and Allied Plastics (Various Authors), 426
Worked Examples in Physics (L. J. Freeman), 558

Brasses and Bronzes, Welding, 299
Brazil, Organic Chemicals in, 628
British Chemical and Dyestuff Traders, 580
British Guiana Bauxite, 312
British Non-Ferrous Minerals (I, Introductory; II, Barytes), 197; (III, Fluorspar), 343; (IV, Quartz, Sandstone), 549
British Industrial Plastics, 226
British Standards, New, 246, 509
Buckets, Plastic Carrying, 70

C

Canada, Phthalic Anhydride in, 301
Canada's Minerals, 70
Canadian Iron Deposit, New, 250
Canadian Metallurgy, Water Power and, 499
Canadian Nickel, 535
Canadian War Chemicals, 554
Capillary Viscometers, 448
Carbonisation, Low Temperature, 503
Carbon Dioxide, Uses of, 584
Carnegie Institution, 162
Cartoons, by Neil Nettleton, 83, 195, 314, 437, 572
Cassava Starch, 248
Caustic Embrittlement, 273
Cellulose, Copper Compounds and, 243
Ceramic Chemistry, II, 85
Charcoal from Gum Leaves, 312
Chemical and Allied Industry in Spain, 245
Chemical Containers in America, 668
Chemical Control, German, 579
Chemical Control in France, 225
Chemical Engineering, 548
Chemical Engineering Group, 292, 581
Chemical Engineers, The Institution of, 70, 393
Chemical Industry and the War, The, 35

v.48 Jan - June 1943

Chemical Industry, Petroleum in the, 261, 285, 317
Chemical Industries, Italy's, 536
Chemical Plant Valves, 293
Chemical Products from Seaweeds, 555
Chemical Progress in Eire, 15, 93
Chemical Publicity, 534
Chemical Trade, Swedish-German, 227
Chemical Warfare on Tropical Diseases, 501
Chemical Workers' Clothing, 420
Chemical Workers' Towels, 303
Chemicals in Eastern Europe, 397
Chemicals in South Africa, 160, 675
Chemicals on the Road, 671
Chemists, Ministry of Supply, 510
China's Mineral Output, 603
Chinese Tin, 20
Chlorinated Rubber, 224
Chlorination of Cooling Water, 295
Chlorinator, A New, 129
Chrome, Turkish, 98
Clothing, Chemical Workers', 420
Coal in the Chemical Industry, 97
Coal Sub-Committee, 20
Colloid Chemistry, Advances in, 88
Colonial Products Research, 132
Colour Control in Paint, 247
Colours for Steel Scrap, 274

United Glass Bottle Manufacturers, 405; United Molasses Co., 514; United Turkey Red Co., 463; Universal Asbestos Manufacturing Co., 230, 310
Vab Products, 169; Viscose Development Co., 358
Wailes Dove Bitumastic, 617; Ward, Thos., W., 310
Yorkshire Indigo, Scarlet & Colour Dyers, 358
Concentrated Liquor Plant, Modern, 521
Concrete Waterproofing, 203
Containers, War-Time Care of, 661
Containers for Canada, 666
Containers in America, Chemical, 668
Control & Measuring Instruments, 451

CONTROL ORDERS, NEW—

Abrasives, Insulators, Catalysts, 249
Bolts & Nuts, 165
Carriage Paid, 25; Catalysts, etc., 249; Clay 350; Coal Tar Products, 24
Dextrine, Starch and, 476; Dulcin, Saccharin and, 538
Edible Oils and Fats, 564; Essential Oils Distribution, 678; Export Control, 429; Export Control Consolidated, 72; Export of Chemicals and Machinery, 538; Export of Chemicals, Silica Bricks, etc., 678; Exports to Iceland, 132
Fats, Edible Oils and, 564; Fish Liver Oil, 228; Flavouring Essences, 187
Glue and Gelatine, 652; Grinding Magnesium, 275
Iron & Steel, 403; Iron and Steel Scrap, 208, 370
Lac, Control of, 329
Machinery, Export of, 538; Magnesium, 72; Magnesium, Grinding, 275; Mica, 208; Mica Clay, 24; Molasses, Sale of, 24
Naphtha and Xylol, 634
Oil, Fish-Liver, 228; Oils and Fats, Edible, 564; Oils, Essential, 678
Polishes, 586; Potash Fertilisers, 678; Price-Controlled Goods, 586; Pyrethrum and Derris, 187
Quinine, 72
Saccharin and Dulcin, 538; Soya Beans, 429; Starch and Dextrine, 476
Textile Bags, 511; Toilet Preparations, 187
Xylol and Naphtha, 634
Zinc Oxide, 538
Conveyor, A Small Portable, 669
Cooling Water, Chlorination of, 295
Copper Committee, 227
Copper Compounds and Cellulose, 243
Copper, Impurities in, 480
Copper, Volumetric Determination of, 609

CORRESPONDENCE—
